A Asymmetric vs mirror CNVs

102 pathways; two-sided P < 0.05: 2 asymmetric-, 1 mirror-enriched

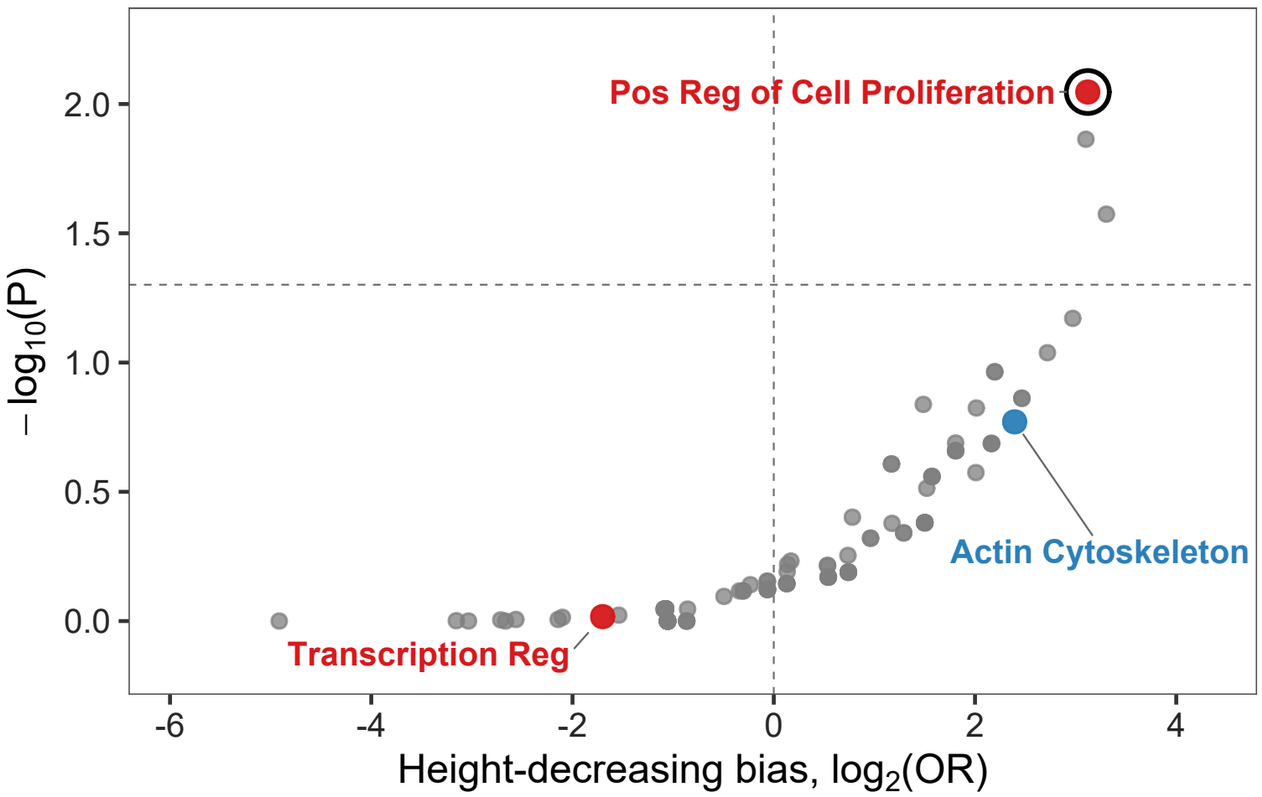

B Enrichment in height genes from Kosmicki et al.

102 pathways; 22 at P < 0.05, 3 Bonferroni

C Bias of pathway genes toward short stature in Kosmicki et al.

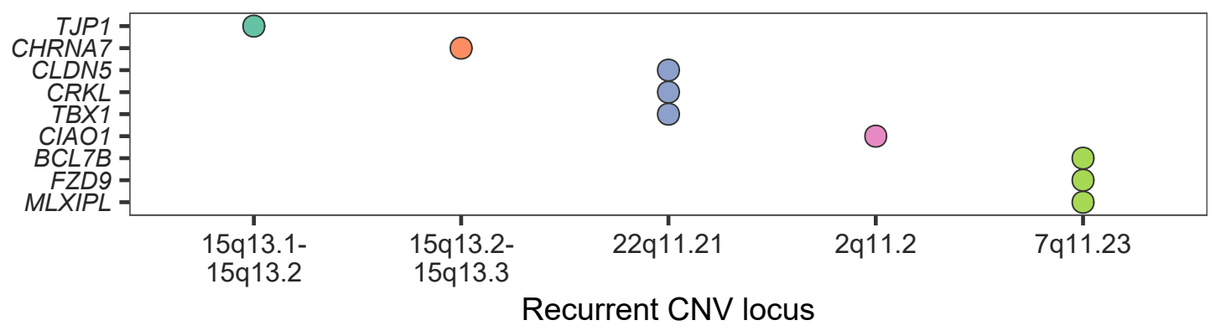

102 pathways; 3 at P < 0.05, 0 Bonferroni

Enriched in asymmetric CNVs (P < 0.05)
Enriched in mirror CNVs (P < 0.05)
Significant in A, B and C

D Asymmetric-CNV genes in GO:0008284

9 of 124 asymmetric-CNV genes in 5 loci; locus-block permutation P = 0.033

E Height effect of the 17 Kosmicki genes in GO:0008284

16 decreasing / 1 increasing (94% vs 65% background); OR 8.70, P = 0.009
